

# 6. Inventory Control / Historical

## 6.2. Current Stock per Departments

**December 2.019**

# 6. Inventory Control / Historical

## 6.2. Current Stock per Department

Class One

This option is used to list the stock by article. This list can be ordered by department, family or article and also define if we want it valued, by Last Purchase price or Average Purchase Price. Once the search is defined, we can limit it by Warehouses, Family or Article. We must also select if the list omits the items WITHOUT STOCK.
