# How do I apply discounts to Articles?

# How do I apply discounts to Articles?

## FAQS

Customer:

When you load the delivery note, it ask for a linear discount?. If it says yes, apply the same discount to all the items on that note.

If you want to apply a different discount to each item on the same delivery note or even to some items and not to others, then by charging the delivery note you will be charging the final amount, i.e. with the VAT already calculated.
