G.2. Warehouse Initialization

When a machining is started at the first moments, data is mostly loaded from already existing master files and certain tests are made. ONCE WE DECIDE TO GO TO REALITY WE MUST CANCEL THE TESTS BUT KEEP THE VALID DATA ALREADY ENTERED.

Main menu / Utilities / Warehouse Initialization

User: adminc1

This option carries out the complete initialization of the selected files. This way it will be possible to start from scratch.

☒ Purchases/movements/outputs

☐ Stocks

☐ Invoices

☐ Set to zero the Last Purch. Price and Avg. Purch. Price in the articles master file
