## G.7. Recalculate Existences

Main menu / Utilities / Recalculate Existences

User: adminc1

This option calculates the existences of each article in each department going through the movements file to make it consistent.

 Recalculate Existences

This PROCESS can be passed as many times as you wish, normally when SOME FILE DISCONFORMITY ANOMALY has occurred, produced by LIGHT CUTTING in some type of UPDATE. It first performs an ACCELERATION process and then, as if it were a manual introduction, all the updates of PURCHASES, TRANSFERS, CONSUMPTIONS, ...
