---

## Bar/Coffee Shop Combined/Menu

# Bar/Coffee Shop (Option .1.)

## Combined/Menu Price List

There are two different solutions to this problem.

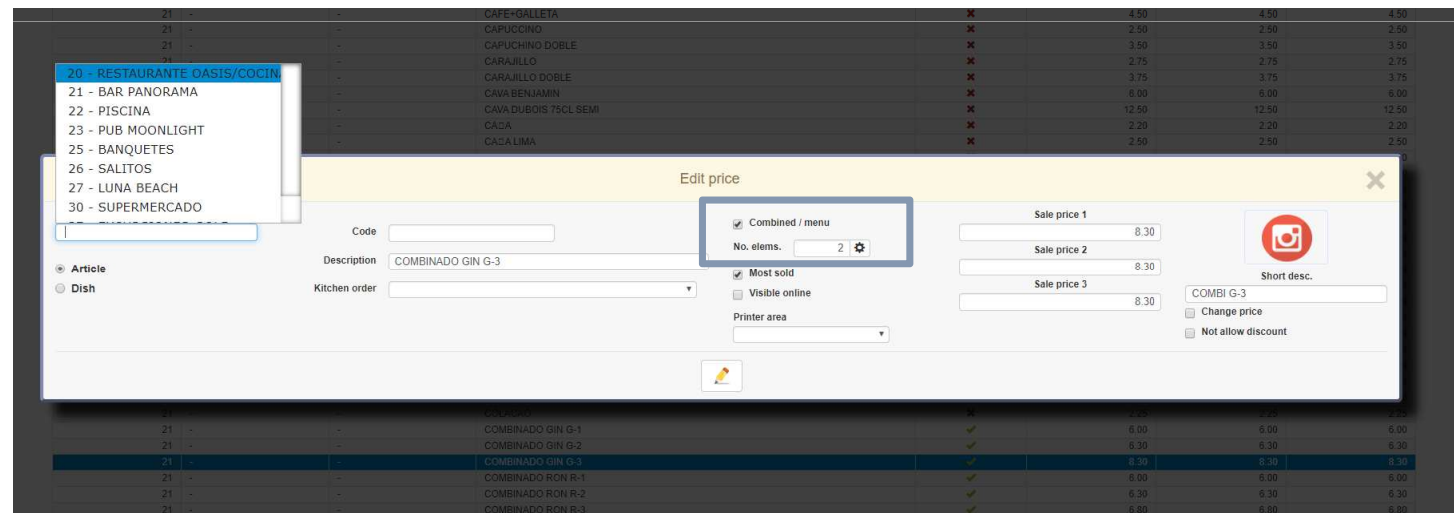

1 – Defining a DISH and its TECHNICAL RECIPE. The only problem is that you must always sell that product, you can not vary the components that are part of the DISH / COMBINED.

2 – Definir en la lista de precios como COMBINADO/MENU. En este caso indicamos que se trata de un producto COMBINADO/MENU, y que está formado por "n" elementos. Hay dos comportamientos diferentes.

- That we can give any article.
- That we fix which ones can be given.

In the first case is when we do not associate any element to that combination.

**In this case it is a combination that is going to have 3 articles, that is to say, that once we have typed this article, the following 3 articles that we press will go to ZERO PRICE.**

## Combined/Menu

Pressing the COMBINED key gives us a first article and then we can press each of the components

### Warning.

If no COMPONENTS have been defined in the PRICE LIST, you can press any ARTICLE in the indicated number of COMBINED components.
