## Colors configuration

To modify the default colors of the service order states, we will do it from **Configuration -> Colors**.

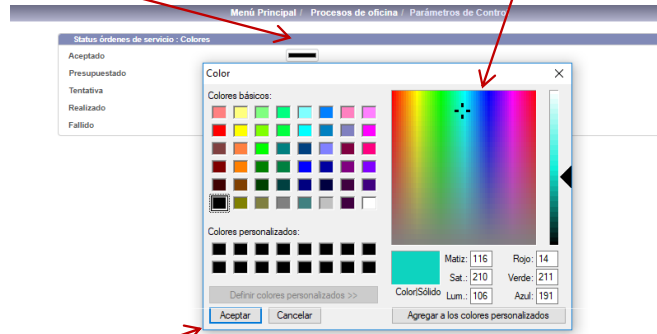

The screenshot shows a web-based configuration interface. At the top, a breadcrumb trail reads "Main menu / Backoffice / Control parameters". On the left, a vertical menu lists various configuration categories: General, Connectivity, Invoicing, Charge hotel, Privileges, GDPR, Colors, and Task Scheduler. The "Colors" item is highlighted with a red box. An arrow points from this box to a configuration panel titled "Service orders status : Colors". This panel contains five rows, each with a status name and a corresponding color swatch: Accepted (green), Budgeted (orange), Attempted (cyan), Completed (blue), and Failed (red). A red box highlights the entire configuration panel, and an arrow points from the text box above to the top of this panel.

Service orders status	Color
Accepted	Green
Budgeted	Orange
Attempted	Cyan
Completed	Blue
Failed	Red

## Colors configuration

By clicking on each of the color options, a drop-down menu will open, allowing us to select a custom color

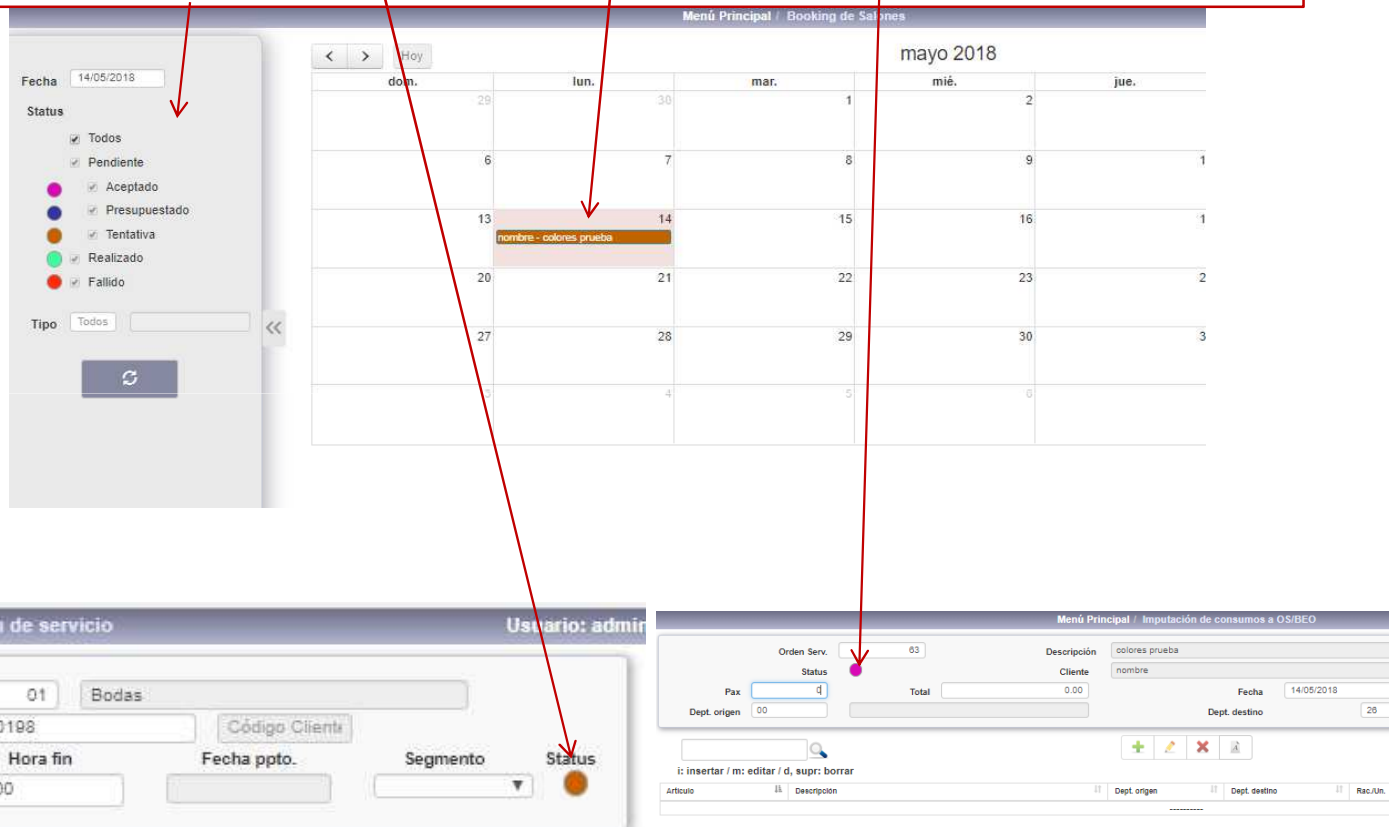

When you click on accept, the selected colors are saved

Colors configuration

The colours will be changed on all pages where they are used

The image displays three screenshots from a software application, illustrating how color configurations are applied across different pages. Red arrows point from a central text box to specific elements in each screenshot.

- Top Left Screenshot:** A configuration panel for 'Booking de Salones'. It shows a date field set to '14/05/2018' and a 'Status' section with several options, each with a colored dot: 'Todos' (grey), 'Pendiente' (grey), 'Aceptado' (purple), 'Presupuestado' (blue), 'Tentativa' (orange), 'Realizado' (green), and 'Fallido' (red). A 'Tipo' dropdown is set to 'Todos'. A refresh button is at the bottom.
- Top Right Screenshot:** A calendar view for 'mayo 2018'. A date on the 14th is highlighted with a brown background, and a tooltip shows 'nombre - colonos prueba'. A red arrow points from the 'Aceptado' status color in the configuration panel to this highlighted date.
- Bottom Left Screenshot:** A 'Nueva orden de servicio' form. The 'Status' field is set to 'Aceptado' and is highlighted with a brown background, matching the color in the configuration panel. A red arrow points from the 'Aceptado' status color in the configuration panel to this field.
- Bottom Right Screenshot:** An 'Imputación de consumos a OS/BEO' form. The 'Status' field is set to 'Aceptado' and is highlighted with a purple background, matching the color in the configuration panel. A red arrow points from the 'Aceptado' status color in the configuration panel to this field.

### Font colors in service orders

To facilitate service order annotations, buttons have been added in the **description** and **+ remarks** boxes to set the color of the fonts and background.

The screenshot shows the 'New service order' form in the Class One software. At the top, there is a navigation bar with 'Main menu / Service orders / New service order' and a user profile 'User: admin1'. Below this is a form with various input fields: 'No. BEO' (190731), 'Reason', 'Type', 'Client' (Events), 'Client name', 'Account Client', 'Code Client', 'Exec. date' (05/02/2020), 'Limit date' (05/02/2020), 'Days' (1), 'Start time' (10:00), 'End time' (14:00), 'Budget date', 'Segment', and 'Status' (a blue circle). Below the form is a tabbed interface with tabs for 'General', 'BEO description', '+ Remarks', 'Halls', 'Notifications', 'Tables arrangement', and 'History'. The 'BEO description' and '+ Remarks' tabs are highlighted with red boxes. Below the tabs are two large text areas for entering descriptions and remarks. Each text area has a toolbar with icons for bold (B), italic (I), bulleted list, numbered list, link, unlink, and font color (A - A - ?). The font color icon in the top-left toolbar of the first text area is highlighted with a red box. At the bottom of the form, there is a 'Concierge' label.
