

# Web basic norms 4.0

November 2.017

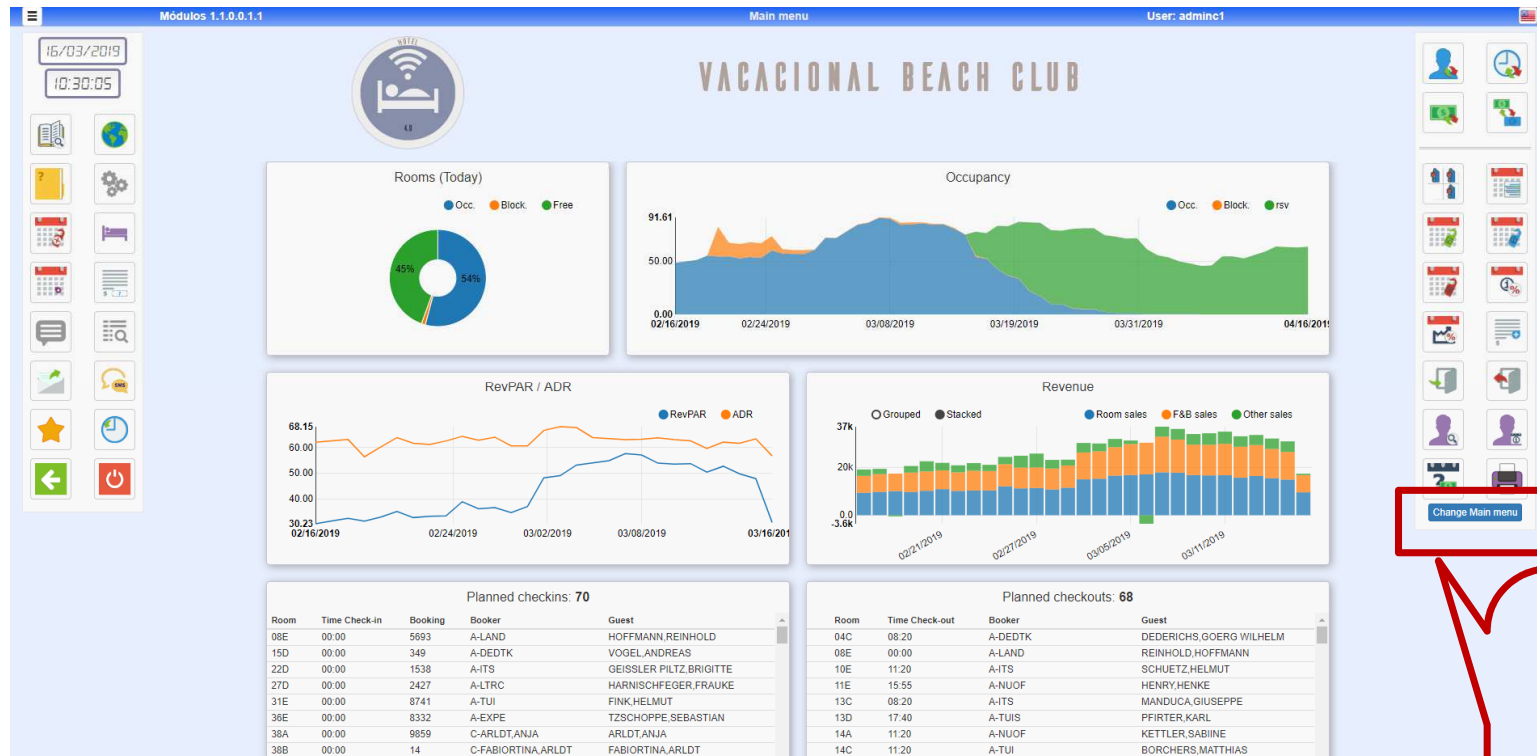

# Basic norms systems Class One

## Navigation Systems

The systems of navigation of the Application in addition to a browser or navigator are handling, are the following ones:

Change to Alternative Menu

Hierarchic

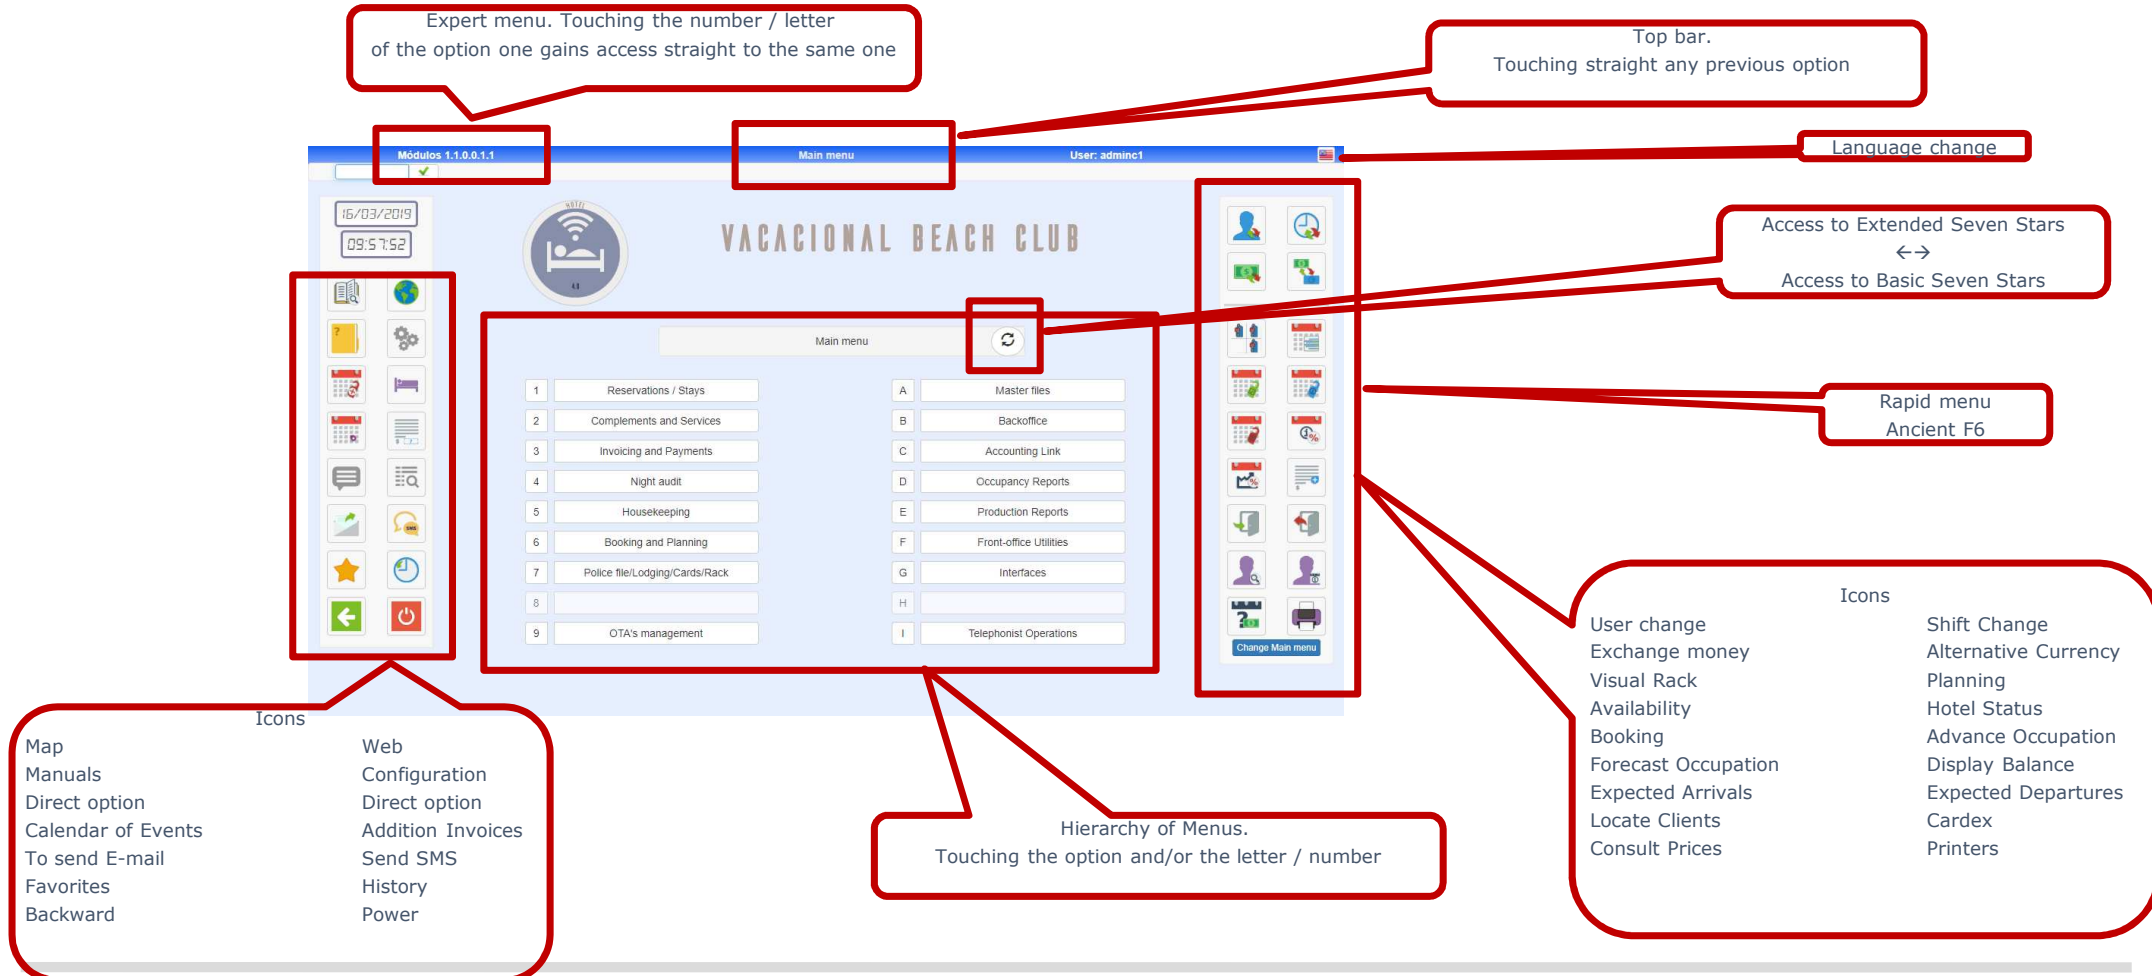

# Navigation Systems

Class One

## Navigation Systems

It has been about to maintain the Menus hierarchy for being very easy to explain where when it should be needed to the Maintenance service. The systems of navigation of the Application in addition to a browser or navigator are handling, are the following ones:

# Systems of Navigation

Class One

## Navigation Systems

Implementation of Menu Hamburguer

General Rooming list

Main menu / Reservations / Stays / 1.1. Reservations Load

User: adminc1

Reservations / Stays

Reservations Load

Allocation Rooming List

Reservations Modification

Booking Update

List of Expected Arrivals

Arrivals with Reservation

Arrivals without Reservation

Messages to Customers

Stays modification

Manual load of external reservations

Modification of external reservations

List of external reservations

Meals/Diners Forecast

List of Expected Departures

Reservations audit

Manual output of rooms

Reservations/Stays historical

Complements and Services

Invoicing and Payments

Night audit

Housekeeping

Booking and Planning

User whom it has entered in the application

Option of menu in which it is

Access to Extended Seven Stars ↔ Access to Basic Seven Stars

The diagram illustrates navigation systems in a web application. It shows a desktop interface with a top navigation bar and a sidebar menu, and a mobile interface with a hamburger menu. Red boxes and arrows highlight specific navigation elements and their corresponding labels.

- Implementation of Menu Hamburguer:** Points to the hamburger menu icon in the mobile interface.
- General Rooming list:** Points to the 'General' and 'Rooming list' tabs in the desktop interface.
- Main menu / Reservations / Stays / 1.1. Reservations Load:** Points to the breadcrumb navigation in the desktop interface.
- User: adminc1:** Points to the user profile and name in the desktop interface.
- Reservations / Stays:** Points to the selected menu item in the mobile sidebar.
- Reservations Load:** Points to the selected menu item in the desktop sidebar.
- Allocation Rooming List:** Points to the menu item in the desktop sidebar.
- Reservations Modification:** Points to the menu item in the desktop sidebar.
- Booking Update:** Points to the menu item in the desktop sidebar.
- List of Expected Arrivals:** Points to the menu item in the desktop sidebar.
- Arrivals with Reservation:** Points to the menu item in the desktop sidebar.
- Arrivals without Reservation:** Points to the menu item in the desktop sidebar.
- Messages to Customers:** Points to the menu item in the desktop sidebar.
- Stays modification:** Points to the menu item in the desktop sidebar.
- Manual load of external reservations:** Points to the menu item in the desktop sidebar.
- Modification of external reservations:** Points to the menu item in the desktop sidebar.
- List of external reservations:** Points to the menu item in the desktop sidebar.
- Meals/Diners Forecast:** Points to the menu item in the desktop sidebar.
- List of Expected Departures:** Points to the menu item in the desktop sidebar.
- Reservations audit:** Points to the menu item in the desktop sidebar.
- Manual output of rooms:** Points to the menu item in the desktop sidebar.
- Reservations/Stays historical:** Points to the menu item in the desktop sidebar.
- Complements and Services:** Points to the menu item in the desktop sidebar.
- Invoicing and Payments:** Points to the menu item in the desktop sidebar.
- Night audit:** Points to the menu item in the desktop sidebar.
- Housekeeping:** Points to the menu item in the desktop sidebar.
- Booking and Planning:** Points to the menu item in the desktop sidebar.
- User whom it has entered in the application:** Points to the user profile icon in the mobile interface.
- Option of menu in which it is:** Points to the 'Reservations / Stays' menu item in the mobile interface.
- Access to Extended Seven Stars ↔ Access to Basic Seven Stars:** Points to the 'Reservations Load' menu item in the mobile interface.

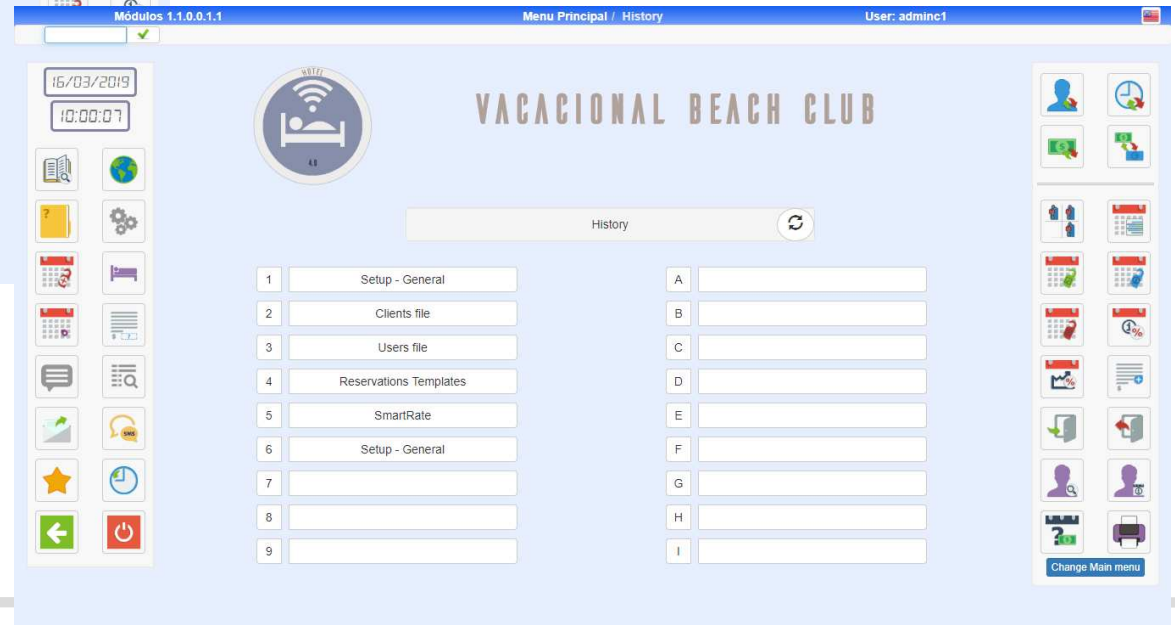

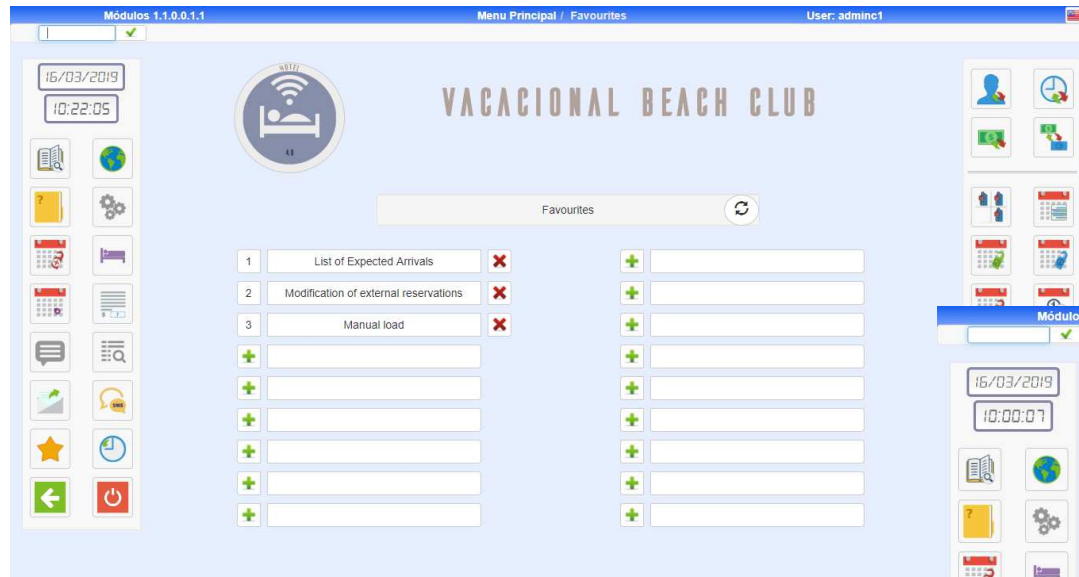

# Navigation Systems

## Navigation Systems. Favorites / History

Since we have seen we possess 2 icons:

Access to Favorites, in which we can define for every user who are its Favorites inside the Application.  
Access to Historical, it shows us the last options to which this user has gained access.

# Basic norms systems Class One

## Operative mechanics

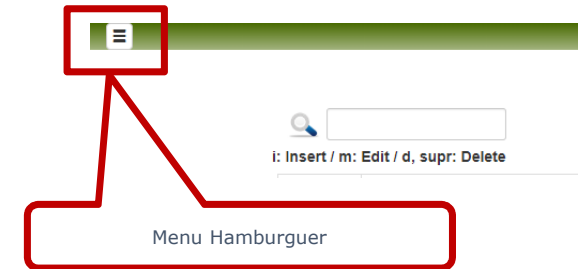

In all the STAGE that we can see in the different paragraphs these basic norms are fulfilled.

Main menu / Master files / A.E. Countries/Groups/States User: admin1

Countries Country groups States

i: Insert / m: Edit / d, supr: Delete

Code	Description	Description English	TV code	Switchboard code	Scanner code	Language	INE code	TL domain	Country group	Active
ADW	Anda	Anda	-	-	-	en	-	AW	-	✓
AFR	Africa Otros	Africa Otros	-	2	-	en	AFR	-	-	✓
AGO	Angola	Angola	-	-	-	pt	-	ao	-	✓
ALB	Albania	Albania	-	2	-	sq	ALB	al	-	✓
AME	America Otros	America Otros	-	1	-	en	AME	-	America Otros	✓
ARE	Emiratos Árabes Unidos	United Arab Emirates	-	-	-	ar	ARE	ae	-	✓

- ❖ Insert a new record
- ❖ Edit a record to (Modify)
- ❖ Dismiss (in any cases it does not resign remains marked in red and it does not appear)
- ❖ Font
- ❖ Leak Erasures
- ❖ Pressing "i" Insert a new record
- ❖ Pressing "m" edit a record to (modify)
- ❖ Pressing "d" suppress, to erase

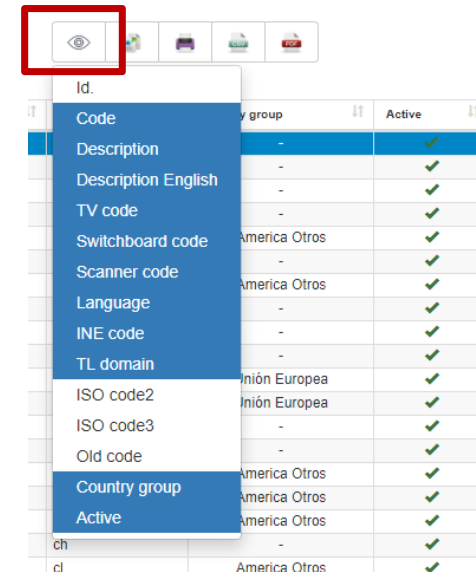

i: Insert / m: Edit / d, supr: Delete

- ❖ Copy the Table
- ❖ Turn CSV
- ❖ Print like pdf
- ❖ Print

To locate information that contain the above mentioned value. On the above mentioned screen they will only appear the item that they fulfill with this condition

By means of this option we can select the columns that we wish them us to appear in the different lists.

Once we have done a selection the same one remains engraved for the above mentioned terminal remaining the following times that we gain access in the above mentioned option

# Basic norms systems Class One

## Operative mechanics

With INTRO, or TAB, FIELD is advanced. With ESC or MAY+TAB, one steps back STAND OUT.  
If one is in the first FIELD and it touches ESC, it steps back to the previous option.

To gain access to Menu Hamburger

Language change

Leave the application

Change preferences of the printer to defect

If we press with the mouse straight the top paragraphs we gain access straight to the options
