1.F. Advance Booking Analysis

It is important if we want to do a correct Y&R Management that we know with what time they are reserving us, in order to be able to do certain actions, for specific dates.

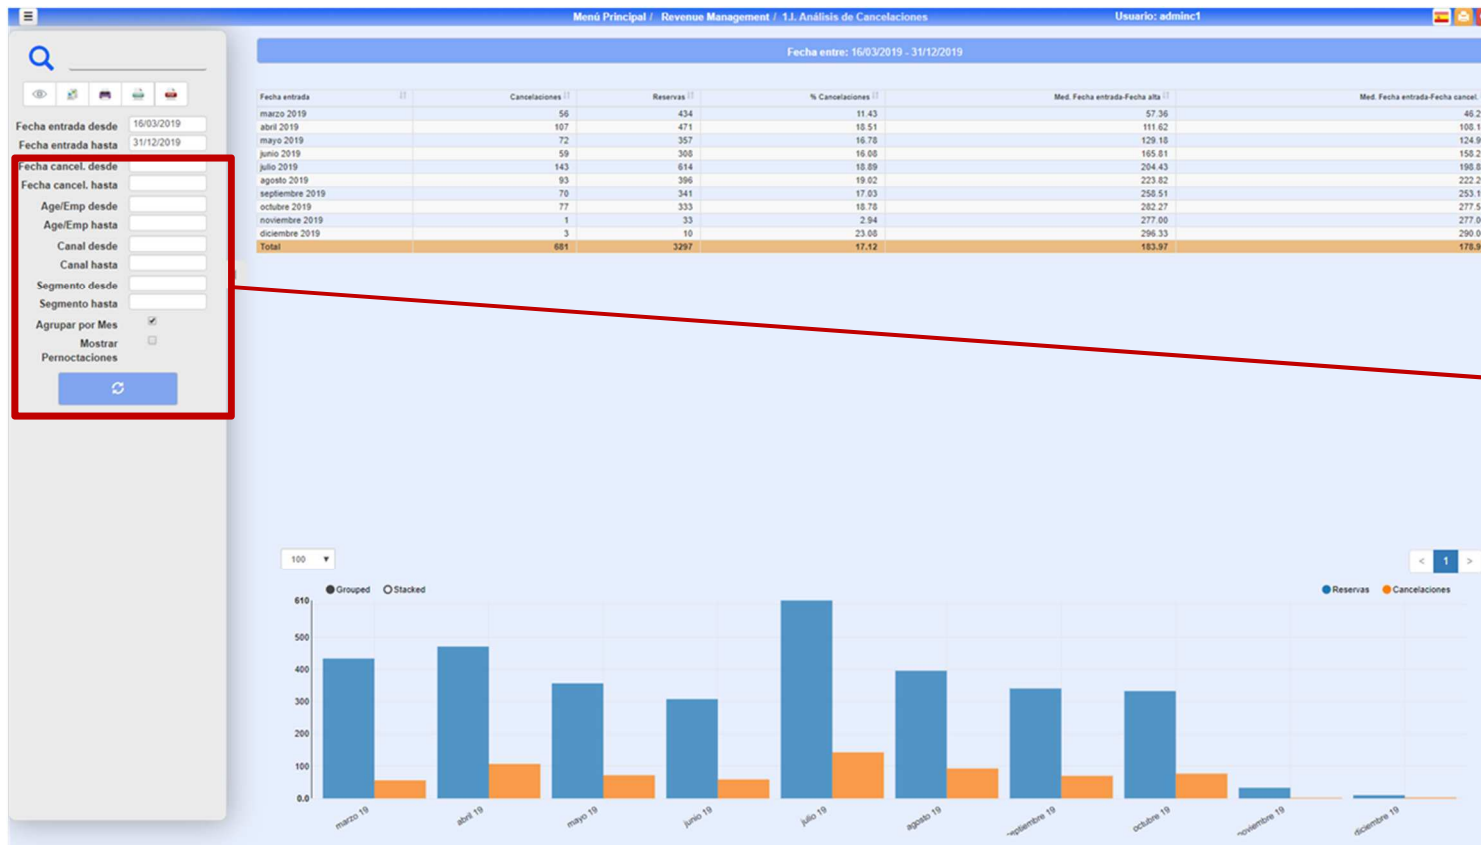

Also we must study the behavior of the Reservations of certain Agencies, Channels, Segments that are of vital importance for us, this we can achieve with the corresponding annotations.

1.I. Cancellation Analysis

As in the previous section, it is good to know the behaviour of Cancelled Reservations.

We must also study the behavior of the Cancellations of Reservations of certain Agencies, Channels, Segments that are of vital importance for us, we can achieve this with the corresponding annotations.
