# B.E. Import data from Medallion

By means of this option we will spend the old files to the new application.

The screenshot shows a web application interface for 'Importar datos Medallion'. The top navigation bar includes the version 'Módulos 1.1.0.0.1.1', the breadcrumb 'Menú Principal / Backoffice / B.E. Importar datos Medallion', and the user 'Usuario: adminc1'. The main content area has a title 'Importar datos Medallion' and three sections for data import:

- Agencias (AGE)**: A button labeled 'Seleccionar archivo' and the text 'Ningún archivo seleccionado'.
- Empresas (COM)**: A button labeled 'Seleccionar archivo' and the text 'Ningún archivo seleccionado'.
- Clientes (CLI)**: A button labeled 'Seleccionar archivo' and the text 'Ningún archivo seleccionado'.

The interface also features a left sidebar with various icons for navigation and a right sidebar with a 'Cambiar Menú Principal' button. The bottom right corner shows the user 'adminc1'.
