Mailing automatism of information

It is important that the persons and/or departments possess the information without need to request it. For it the Smart Seven Stars system, it gives us an e-mail system by means of which a Department or a series of persons, receive certain reports generated in the application.

The most usual is that that are generated in the Night closing

Editar Dept.

Nombre: Operaciones

Email: directoroperaciones@hotel.com;juancarlos@hotel.com

Menú Principal / Backoffice / B.7. Setup - General

Usuario: admin

Email

2 - Operaciones

Lista de incidencias

In this example we see as the Operations manager receives a report with the Incidences that have existed in the Hotel the previous day.

Or the housekeeper can receive incidences by e-mail of its Cleaners at the moment when these take place
